

Scope of Work

This document is created to serve as a mutually acceptable Scope of Work (SOW) between SEG IT Services Co., Ltd. (SEG) and SEG's Customer.

Every job we do for our Customer will be prefaced with a Scope of Work that will be reviewed with the Customer representative and/or assigned engineer before we do the job. We make sure you are comfortable with all aspects of the project, big or small.

SEG shall provide remedial maintenance during the Service Hours when notified that the equipment is inoperative. SEG will use its best efforts to respond to the call for remedial service within the Response Time. The Company also provides preventative maintenance either by arrangement with the Customer or which may be performed concurrently with remedial maintenance.

Customer will be responsible for providing a single point of contact for coordination with SEG assigned IT Specialist.

1. Hardware & Peripherals

Upkeep and maintenance of the hardware installed including Servers, Personal Computers, Printers, Scanners, CD Writers and Laptops.

- Maintain System Services & Configurations
